Just as an **example** we attach the description of our 2020 virtual sponsoring booths, which we might **adapt to Scoocs, the replacement of iChair (run by the same people) in 2021**. Nevertheless, your opportunities for the virtual booth will very much look like this:

Set-up Virtual 3D Booths

It has functions which are pretty similar to what you know from regular meetings:

- You can place a large top banner as well as smaller banners
- You can place your banner-ups / Role ups virtually
- You can hang posters
- You can place your journals in a shelves
- You can place a promotion- or demo-video which runs on demand (middle)
- You can link to all you social media sites
- You can place profiles of your representatives, which can be clicked on by the participants in order to get in contact with you. You representative can then either chat or go into a 1-1 discussion in a breakout room.
- You can schedule 1-1 sessions in advance with participants you want to meet
- PLUS you will get all info of the people who came to your booth, so you can try to contact them during the meeting if you've „missed“ them

PLUS:

- we will have your logo on the dashboard of the meeting all the time
- and of course we can show your slides in the breaks.

It will take us a while to set up everything, but we strongly believe that this will be most helpful for you as well as our participants.

Please contact us any time if you have further questions!
