

e:Med NETWORKING

Dear e:Med members, dear colleagues,

All of you are doing an extraordinary job in bringing systems medicine forward.

Every day you manage to adapt to scientists from diverse disciplines and to think, work and act outside the box. You share data and you involve yourself in science far beyond the usual in order to achieve something special and new in systems medicine. You focus on particular areas of research - ultimately the key for success is your openness to new ideas, curiosity and creativity with which you identify and address important issues. Thank you for your contribution to e:Med!

The e:Med Meeting 2017 which will be held from November 21- 23 in Göttingen is an essential opportunity to exchange ideas with colleagues in systems medicine „mark your calendars“.

What else does the e:Med membership have to offer to you?

We created this short paper in order to present you a toolbox of possibilities. It shows how to use your e:Med membership best in order to find future cooperation partners, to obtain information and to contact experts in the area of methods and technologies.

It bundles initiatives of the community, the project committee and its management office. Look into it and see what is relevant and useful for your particular needs. Also, please share the information with your colleagues. Contact us or the e:Med management office if you have any questions. Be our guest to contribute additional content and new ideas. Together we can achieve great results!

Your e:Med Project Committee

e:Med Members Tool Box & Networking Information

Who/How/What/Where/When?

e:Med Website www.sys-med.de

information about e:Med, all alliances and subprojects, links to: alliance websites, dates, events, systems medicine news, job portal, e:Med in the media

Intranet

for all members, with internal e:Med information. Still without access? Ask for your account: info@sys-med.de

e:Med Project Groups

substantially and methodologically overlapping issues: exchange of ideas and discussion, content-driven networking, across alliances

Publication List

e:Med overall and separate: Publication of the individual alliances on the alliance webpages - please inform us about your publication, we will post it on the website

e:Med Expertise - including search function

showing who works how and in what matter interdisciplinary

E-Mail Service

serving as a mailing list for the community: Job portal, conferences, surveys

Comments Function

to comment highlights on the website, to facilitate dialogue

Media - make your research public

e:Med*ium* newsletter, research highlights, newsticker, external newsletter

Website of Individual Alliances

offer additional information (external links)

Webinars

free offer for the entire e:Med community

e:Med Project Committee

already 17 meetings, minutes are available for all members on the intranet

Collegial View on the Project Course

presentation of each alliance at the e:Med project committee

TMF Membership

get involved in working groups and forums: www.tmf-ev.de

Systems Medicine Community Network

e:Med Module IV: de.NBI, i:DSem, LiSyM
e:Med Module V: ICGCmed, IHEC, CASyM, EASyM, ERACoSysMed, ERASynBio, PerMed
ELSA, Systems Medicine Web Hub (systemsmedicine.net)

Networking beyond Systems Medicine

Deutsche Zentren der Gesundheitsforschung (DZG): DKTK, DZNE, DZHK, DZIF, DZL, DZD

Methods & Technologies

Keywords/Technologies/Disciplines >

of the alliances are transparent for all via the search function on the website

Methods and Experts >

contact persons within e:Med accessible on the intranet – based on the survey of the project group informatics & modelling

Events & Training

e:Med Summer Schools 2017 >

SEED: SEquencing Analysis of Epigenetic DEregulation in Disease

COME: CardiOvascular Systems MEdicine

Summer School Calls >

application on an annual basis initiated by the PC

e:Med Information Booth and Print Materials

e:Med information booth, e:Med*ium* newsletter, flyer and information material for the usage of all members

e:Med Annual Meetings >

with anchor points and 50% of the time for networking

Expert Database >

e:Med scientists are listed in the database of the Science Media Center Germany (www.sciencemediacenter.de)

„Systems Medicine as a Profession“

public event for young scientists at the e:Med Meeting 2017

Workshops >

via e:Med/ project groups/ TMF/ de.NBI

e:Med Presentation at Conferences >

(CASyM, DGIM, EASyM, PerMediCon, SBHD, TMF etc.) presented by talks and the e:Med information booth

In Planning

PhD Retreats

e:Med PhD student networking

e:Med Picture Award

send a photograph related to your scientific project

e:Med Young Investigator Award

awarded to the most successful e:Med young scientist

e:Med Young Scientists Platform

website for math students (in preparation)

Your e:Med success - carry on!

490 Publications from e:Med projects

51 Publications in journals > IF 15

58 Publications by several alliances

22 Awards

as of April 2017

Take advantage of the opportunities!
