

# e:Med Meeting 2024 on Systems Medicine

November 21-23, 2024  
Bucerius Law School, Hamburg

## Be part of the next e:Med Meeting 2024 at the Bucerius Law School in Hamburg

- In-person conference
- Latest systems medicine technologies
- International speakers
- State-of-the art topics
- Poster exhibition
- Networking!

**Systems Medicine** as decisive for personalized and precision medicine has established itself as an exceptionally wide and still rapidly growing field. Here medicine, biology, pharmaceuticals, physics, informatics as well as mathematics work together to build the bridge between bench and bedside, to drastically improve diagnosis, therapy and prevention of widespread human diseases. Therefore, systems medicine is by now a most innovative field in the life sciences.

**e:Med** is the large **nationally funded Systems Medicine research network** merging more than 50 research sites in over 180 projects. Here, state-of-the-art “Omics-research” is performed, big data is processed, and therapeutic targets are investigated.

The **annual e:Med Meeting** brings together the systems medicine community. Scientists with expertise in molecular-genetics, clinics, mathematics and information technology gather to ensure that research results quickly progress to benefit patients.

In **2024**, about 250 participants are expected at the e:Med Meeting in Hamburg.

Bucerius Law School, Hamburg

## Retrospect from the e:Med Meetings on Systems Medicine

Since 2014, the e:Med community has been meeting at various locations in Germany to discuss their latest research findings, make new connections and renew existing ones. Around 300 to 500 systems medicine enthusiasts take part in the scientific sessions each year, which range from systems medicine technologies, bioinformatics and modeling solutions to systems medicine of diseases and translational approaches. In addition to numerous presentations on e:Med projects, participants can expect lively poster discussions, panel discussions of the Molecular Disease Board and insights into the latest technologies through scientific presentations as well as an exhibition of our sponsors. The evening events offer plenty of time for networking to get into exciting discussions.
